# SOMA strengthens us market presence

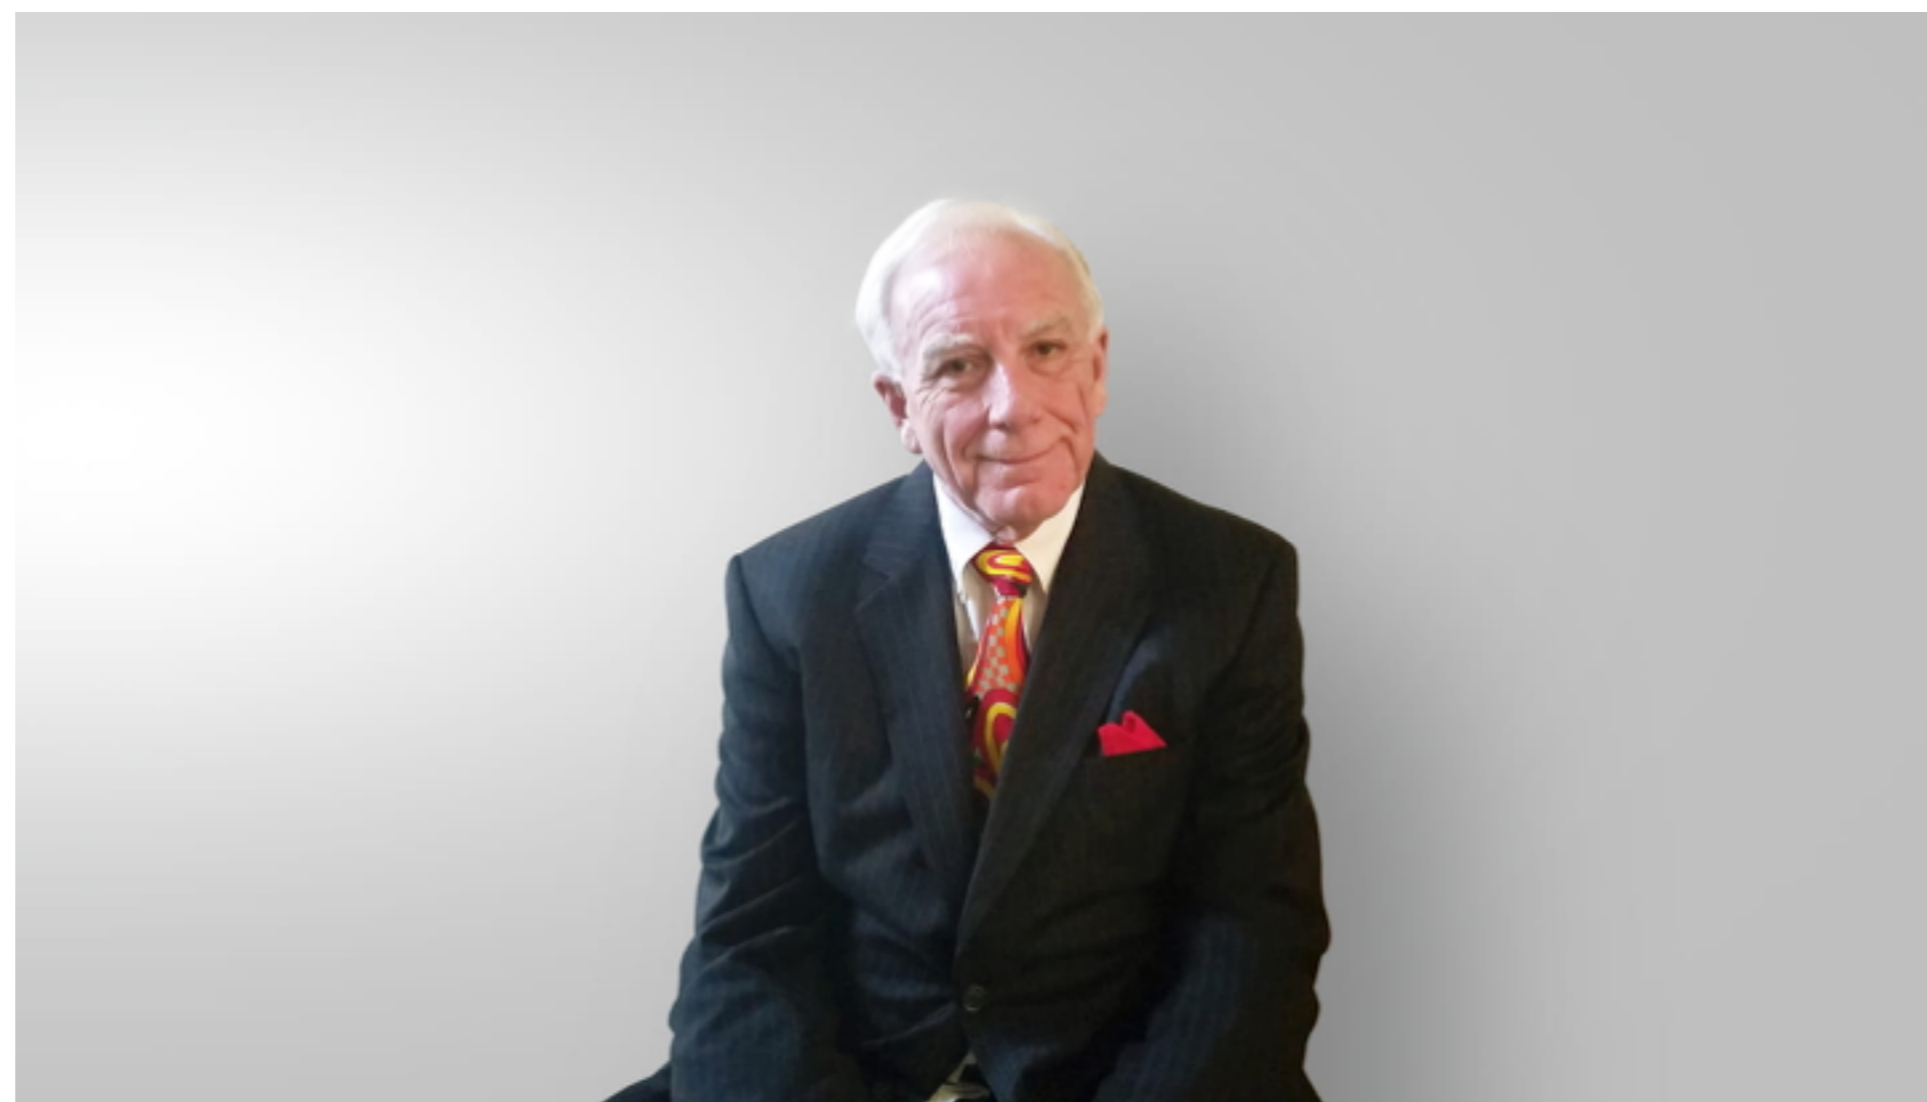

Czech Republic based SOMA has strengthened its presence in mid-west US by appointing a highly experienced area sales manager.

Czech Republic based SOMA, producer of flexographic printing presses, slitter rewinders and laminators has strengthened its presence in mid-west US by appointing a highly experienced area sales manager.

As part of its long-term strategic plan to build presence in the US, David Dean joins the sales and service team located in Long Island, New York. He brings with him many years' experience in the US flexographic industry.

Dean previous work experience in the printing industry include companies such as Standard Process Corporation in Chicago, IL – a manufacturer of rotogravure cylinders, electro-plating equipment and cylinder finishing equipment; J. M. Heaford, a manufacturer of Rotogravure and Flexographic proofing presses and his own company Dean Printing Systems, offering equipment, chemistry, electronics and supplies for the rotogravure industry.

Dean joins the team from Chicago and will play a significant role in developing SOMA's operations in the US, confirming its commitment to bringing the latest flexo technology to the US.
