

These are Khalid Sheikh Mohammed's principle financiers

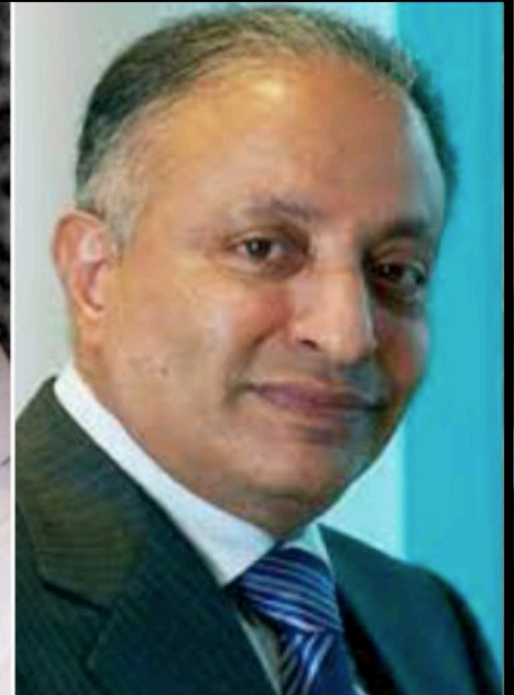

1987-92 1993-96 1997-9/11

Abdul Rasul Sayyaf
- NATO allied Afghan Warlord

Abdullah bin Khalid al-Thani
- Qatar government minister

Dirhem Abdo Saeed
-Hayel Saeed Anam Group

Evidence of Khalid Sheikh Mohammed's (KSM) hosts and financiers:

Abdul Rasul Sayyaf was the principle conduit for Arab Gulf nations' donations to the 1980s Afghan Mujahideen cause, as per [this 1985 CIA assessment](#) that states: "Sayyaf has used his role as the principle conduit of Arab money to the Jihad (holy war) to build his own insurgent organisation".

The [9/11 Commission report](#) states (Pages 146 & 147) that: "Sayyaf became KSM's mentor and provided KSM with military training at Sayyaf's Sada camp." and "Between 1988 and 1992, KSM helped run a nongovernmental organization in Peshawar and Jalalabad; sponsored by Sayyaf,"

Abdullah bin Khalid al-Thani is named in [this US Department of Defense assessment of KSM](#), stating: "In 1993 detainee [KSM] moved his family to Qatar at the suggestion of the former Minister for Islamic affairs of Qatar, Shaykh Abdullah Bin Khalid Bin Hamad al-Thani, where he took a position as Project Engineer with the Qatari Ministry of Electricity and Water. Detainee [KSM] engaged in extensive international travel during his tenure at the Qatari ministry until early 1996"

Dirhem Abdo Saeed is not named in any official documents relating to KSM or 9/11 but based on the following first hand information I can prove that Mr Saeed financed and hosted KSM in 1997, and that KSM initialised the 9/11 plot whilst based in the headquarters of one of Mr Saeed's companies.

[April 1997 Chicago](#): Longulf Trading of London purchased \$3-million of printing machinery to furnish KSM's front company in Yemen, including a flexographic printing plate mounting & proofing machine from my employer J M Heaford Ltd. Dirhem Abdo Saeed is Longulf Trading's managing director.

[September 1997 Yemen](#): I was the technician sent to Yemen to install the machine purchased by Longulf Trading. That is where I was introduced to 'the Engineer' (Khalid Sheikh Mohammed), inside the headquarters compound of the Hayel Saeed Anam Group at PO Box 5302, Taiz (13.588, 44.033). [Dirhem Abdo Saeed](#) is a vice-chairman of the Hayel Saeed Anam Group.
